“SPAITECH SPE” LLC

ABOUT THE COMPANY

- Spaitch has been successfully operating on the Ukrainian market since 2012 and now is a leading developer and producer of innovative unmanned aerial complexes for military purposes.
- Our market strategy is based on the production of high-tech unmanned solutions that have no analogues around the world. We constantly pursue excellence and ensure quality control of our products at all stages of development.
- Unique unmanned aerial complexes of Spaitch are recognized by the Ukrainian government, acclaimed world designers and renowned engineers. They have proven highly effective in a real battlefield situation, and have been successfully applied by the Armed Forces of Ukraine and volunteer battalions in military operations.
- Spaitch products are also widely used in carrying out civilian tasks in various spheres, such as agriculture and forestry, construction, engineering structures, and monitoring environmental conditions.
- We are determined to enter the foreign military and civilian drone markets.
